Disklabs®
Faraday Bag

Product Catalogue

About Disklabs Faraday Bags

Disklabs are a Cyber Forensics company, with a background in Data Recovery and Digital Forensics. In 2004, Disklabs needed to protect a mobile device from connecting to a network and developed the world's first Faraday bag with a window that allowed the forensic analyst to view the screen of the mobile device. Since then, Disklabs have been designing and developing a range of RF Shielded Faraday bag products for all needs. Choosing to work with only the best distributors globally, Disklabs

now serve markets which include, among others such as Police Forces, Intelligence Agencies, Military Units, Government Departments, C-Suite Executives, VIP's, Celebrities and Owners of High Value Vehicles.

Disklabs Faraday Bags will protect your devices from 2G, 3G, 4G, 5G, Bluetooth, GPS and WiFi (2.5Ghz and 5Ghz).

Protecting Your Digital Life.

Key Shield

Blocks all signals to and from remote key fobs. This prevents a common Relay Theft hack of your vehicle.

Key Shield

KS1

| | |
|---|---|
|  10cm x 10cm |  N/A |
|  11.5cm x 11.5cm |  N/A |
|  17cm (Open) |  40g |

The KS1 is a windowless bag that can secure key-less car entry fobs or other small devices up to 10cm x 10cm in size.

Key Shield Home

KS1H

| | |
|---|--|
|  14cm x 24cm |  N/A |
|  17cm x 25cm |  N/A |
|  31cm (Open) |  100g |

The KS1H is a stylish bag designed for the home user to store keyless car entry fobs or small devices up to 14cmx24cm. This is also large enough to secure an iPad Mini.

All Disklabs bags can be manufactured with your own logo or your customers logo. Faraday Bags can also be made unbranded. Ask you distributor for more details* (subject to quantity).

ID Shield

Ensure you're not tracked.

Ensure you can't be disturbed in sensitive meetings
or conferences.

ID Shield

ID1

| | | | |
|---|---------------|---|-----|
|  | 11cm x 15cm |  | N/A |
|  | 12.5cm x 17cm |  | N/A |
|  | 22.5cm (Open) |  | 55g |

The ID1 is a windowless bag with a windowed pouch allowing a mobile phone and passport to be secured whilst allowing the ID Card in the pouch to be displayed, so it continues to work with RFID and NFC. It has a soft back and a lanyard which allows it to be worn around the neck.

Protect Your Identity
You Only Have **One.**

All Disklabs bags can be manufactured with your own logo or your customers logo. Faraday Bags can also be made unbranded. Ask your distributor for more details* (subject to quantity).

Phone Shield

Secure your phone from remote tracking and hacking.
Our Phone Shield will protect your device from
outside interference.

Phone Shield

PS1

| | | | |
|---|---------------|---|-----|
|  | 10cm x 18cm |  | N/A |
|  | 11.5cm x 19cm |  | N/A |
|  | 25cm (Open) |  | 55g |

A small, windowless RF Shielded Faraday bag that will isolate one mobile phone, GPS or other small electronic device.

All Disklabs bags can be manufactured with your own logo or your customers logo. Faraday Bags can also be made unbranded. Ask you distributor for more details* (subject to quantity).

Tablet Shield

Tablet Shield Small

TS1S

| | | | |
|--|-------------|--|------|
| | 14cm x 24cm | | N/A |
| | 17cm x 25cm | | N/A |
| | 31cm (Open) | | 100g |

The TS1 Small is a windowless bag designed to secure small tablets up to 14cmx24cm. This is roughly the size of an iPad Mini.

Tablet Shield

TS1

| | | | |
|--|-------------|--|------|
| | 20cm x 26cm | | N/A |
| | 22cm x 28cm | | N/A |
| | 36cm (Open) | | 145g |

A tablet-sized bag, designed to stop RF connectivity to tablets. These bags are designed to shield 2G, 3G, 4G, Bluetooth and WiFi.

Tablet Shield Large

TS1L

| | | | |
|--|---------------|--|------|
| | 30cm x 40cm | | N/A |
| | 32cm x 42cm | | N/A |
| | 50.5cm (Open) | | 255g |

The TS1L is a windowless bag that can secure tablets all the way up to 26cmx40cm, with a diagonal of 18 inches. This is large enough to hold the largest tablets on the market comfortably.

Tablet Shield Extra Large

TS1XL

| | | | |
|--|-------------|--|------|
| | 40cm x 45cm | | N/A |
| | 42cm x 47cm | | N/A |
| | 57cm (Open) | | 385g |

The TS1XL is a windowless bag, designed to carry the largest tablets as well as small notebooks. Internal dimensions are 40cmx45cm, with a diagonal of 23.7 inches.

Notebook Shield & Laptop Shield

Notebook Shield

NS1

| | | | |
|--|---------------|--|------|
| | 33.5cm x 25cm | | N/A |
| | 36cm x 27cm | | N/A |
| | 35cm (Open) | | 290g |

The NS1 is a Notebook Shield designed as a stylish way to carry slimline notebook computers securely. The internal size of 33.5cmx24cm is large enough to fit the Microsoft Surface Pro and Dell XPS13. The bag features a comfortable carrying handle and 2 pockets on the back for holding a mouse and power supply.

Laptop Shield

LS1

| | | | |
|--|-----------------|--|------|
| | 43.5cm x 28cm | | N/A |
| | 45.5cm x 31.5cm | | N/A |
| | 41cm (Open) | | 335g |

The LS1 is a Laptop Bag designed as a stylish way to carry laptop computers securely. The internal size of 43cmx33cm is large enough to fit a 15" laptop comfortably. The bag features a comfortable carrying handle.

Holdall Shield

Holdall Shield

HS1

| | | | |
|--|---------------|--|------|
| | 60cm x 44cm | | N/A |
| | 62.5cm x 48cm | | N/A |
| | 61.5cm (Open) | | 630g |

The HS1 is a large windowless bag, similar in size to a messenger bag. It comes with carry straps and is designed to isolate larger portable computers, or a range of devices, securely. It can carry devices up to 47cmx60cm.

Holdall Shield 3 (40 Ltr)

HS340ltr

| | | | |
|--|-------------|--|-------|
| | 48cm x 32cm | | 29cm |
| | 50cm x 33cm | | 30cm |
| | 55cm (Open) | | 1150g |

The HS3 40ltr is a large holdall-style bag that is designed to isolate and transport a large quantity of electronic devices, or goods where there's a suspicion that tracking devices may have been discreetly installed. It has a zip top and a carrying strap and handles. The 40 ltr capacity holdall has an internal size of 45cmx31cmx28.5cm. This bag is also lockable with evidence tags.

Holdall Shield 3 (80 Ltr)

HS380ltr

| | | | |
|--|-------------|--|-------|
| | 67cm x 32cm | | 33cm |
| | 69cm x 34cm | | 35cm |
| | 63cm (Open) | | 1740g |

The HS3 80ltr is an extra-large holdall-style bag that is designed to isolate and transport a large quantity of electronic devices, or goods where there's a suspicion that tracking devices may have been discreetly installed. It has a zip top and a carrying strap and handles. The strapping on this bag can be used to carry as a Ruck Sack, as well as the traditional handle style carry. This bag is also lockable with evidence tags.

Duffel Shield (65 Ltr)

DS4

| | | | |
|--|-------------|--|-------|
| | 60cm x 35cm | | 25cm |
| | 62cm x 37cm | | 29cm |
| | 60cm (Open) | | 1500g |

The DS4 65ltr is a duffel-style holdall that can be used to secure a large quantity of electronics and ensure that contents can't be tracked by any devices that have been hidden within them. It has a roll-down top that secures with clips, a carrying strap and handles. The internal measurements are 60x33x32cm.

A graphic on the left side of the slide consisting of several concentric circles. The circles are colored in a gradient from dark purple on the inside to a medium blue on the outside. They are partially cut off by the left edge of the frame.

Laboratory Shields

Phone Shield Lab Edition

PS2

| | | | |
|--|---------------|--|-----|
| | 10cm x 22cm | | N/A |
| | 11.5cm x 24cm | | N/A |
| | 29cm (Open) | | 70g |

The PS2 is a lab edition bag with a window designed to allow viewing of the device inside, while remaining isolated from RF signals. Perfect for forensic lab work to prevent the remote wiping of data and other outside interference.

Tablet Shield (Lab Edition)

TS2

| | | | |
|--|---------------|--|------|
| | 20cm x 33.5cm | | N/A |
| | 22cm x 35.5cm | | N/A |
| | 44cm (Open) | | 175g |

The TS2 is a lab edition bag featuring a window that allows viewing and photographing of the contents while keeping it secure from radio frequencies. It can carry tablets up to 20x26cm, with a diagonal of 32.8cm/12.9in.

Tablet Shield Large (Lab Edition)

TS2L

| | | | |
|--|---------------|--|------|
| | 30cm x 38.5cm | | N/A |
| | 32cm x 41cm | | N/A |
| | 50cm (Open) | | 245g |

The TS2L is an large lab edition Tablet Shield featuring a window that allows viewing and photographing of the contents while keeping it secure from radio frequencies. It can carry tablets up to 30x26cm with a diagonal of 15 inches.

Laboratory Shield

LB2

| | | | |
|--|---------------|--|-------|
| | 32.5cm x 37cm | | 14cm |
| | 35cm x 39cm | | 15cm |
| | 65cm (Open) | | 1160g |

The LB2 is a Laboratory Box specifically designed for those who handle mobile devices for forensic acquisition. The box features an integrated pair of RF-shielded gloves to allow forensic analysts to unbag devices in a shielded area. The internal size is 32.5cmx37cmx14cm.

Executive Range

Card Shield

CS1

| | | | |
|--|----------------|--|-----|
| | 21.5cm x 9.5cm | | N/A |
| | 23cm x 11cm | | N/A |
| | 11cm (Open) | | 80g |

The Executive Card Shield is a beautiful hand-crafted premium leather wallet that keeps contactless payment and ID cards safe from hackers. The soft leather will last for years, and ages over time making each product unique. The bi-fold wallet measures 21.5cm x 9cm internally and features 8 card slots and 2 note sections.

Key Shield Executive

KS1E

| | | | |
|---|-----------------|---|-----|
|  | 11cm x 11cm |  | N/A |
|  | 11.5cm x 11.5cm |  | N/A |
|  | 17cm (Open) |  | 55g |

The KS1 Executive is a premium leather windowless bag that can secure key-less car entry fobs or other small devices up to 10cm x 10cm in size.

Phone Shield Executive

PS1E

| | | | |
|---|-------------|---|-----|
|  | 11cm x 18cm |  | N/A |
|  | 15cm x 19cm |  | N/A |
|  | 25cm (Open) |  | 75g |

The Executive Phone Shield is a gorgeous hand-crafted premium leather case that looks the part while keeping mobile phones safe from remote access and location tracking. The soft leather will last for years, and ages over time making each product unique.

Tablet Shield Executive

TS1E

| | | | |
|---|-------------|---|------|
|  | 20cm x 26cm |  | N/A |
|  | 22cm x 28cm |  | N/A |
|  | 36cm (Open) |  | 195g |

The Executive Tablet Shield is a stunning hand-crafted premium leather case that looks great and keeps tablet computers safe from remote access and location tracking. The soft leather will last for years, and ages over time making each product unique. The spacious 20x26cm interior is large enough to safeguard tablets up to around 12" in the diagonal.

Notebook Shield Executive

NS1E

| | | | |
|---|---------------|---|------|
|  | 33cm x 22cm |  | N/A |
|  | 34.5cm x 25cm |  | N/A |
|  | 38cm (Open) |  | 375g |

The Executive Notebook Shield is an incredible hand-crafted premium leather case that keeps notebook computers safe from attack while still looking sophisticated. The soft leather will last for years, and ages over time making each product unique. The interior is 33cm x 22cm and comfortably holds notebooks and thin laptops up to 13" diagonal.

STYLE

SECURITY

Speciality Shields

Drone Shield

DS1

| | | |
|--|--------------|-------|
| | | N/A |
| | 125cm x 60cm | N/A |
| | 80cm (Open) | 3450g |

The DS1 is a Drone Shield bag that is designed to ensure captured drones are not accessed remotely to remove evidence on them before they can be examined. It can also carry large electronic devices, without any tracking or remote access. The internal size is 125x60x30cm and the bag features loops for attaching handles and straps.

Faraday Blanket

FB1

| | | | |
|--|---------|--|-------|
| | N/A | | N/A |
| | 2m x 2m | | N/A |
| | N/A | | 5.5KG |

The Faraday Blanket is designed to limit radio signals. It is commonly used by TEMPEST Teams to restrict the signals during testing. Shields RF signals from mobile phones, tablet devices and laptops. Uses Disklabs 5 layer DL5LFSM material that blocks radio signals. Uses Cordura as external material and is water resistant

Rack Shield (4U)

RS4U

| | | | |
|--|-------------|--|-------|
| | 81cm x 29cm | | 60cm |
| | 97cm x 30cm | | 64cm |
| | 130m (Open) | | 3450g |

The RS4U is an unbranded Rack Shield bag that features no external branding to give any indication of purpose or contents. It is designed to carry large electronic devices such as rack-format computer servers up to 4U deep securely and covertly without tracking or remote access. The internal size is 125x60x30cm and the bag features loops for attaching handles and straps.

All Disklabs bags can be manufactured with your own logo or your customers logo. Faraday Bags can also be made unbranded. Ask you distributor for more details* (subject to quantity).
